An independent and self-motivated hardworking individual dedicated towards goals.

WORK EXPERIENCE

AI Engineer Intern, DevVibe

Jun 2025-Aug 2025 | Multan, Pakistan

Tasks

- Built **RAG-based AI applications** and document-driven chatbots using LLMs and vector databases.
- Deployed and managed AI systems on **AWS**.
- **Fine-tuned models** using **Hugging Face** for task-specific performance.
- Containerized applications with **Docker** for reliable deployment.
- Developed end-to-end **AI pipelines**

Full Stack AI Engineer, Fiverr

Jan 2023 - Present

Tasks

- Developed end-to-end **Agentic AI applications** including intelligent multi-step AI workflows.
- Built **RAG-based applications** for document search, knowledge-base chatbots, and AI assistants.
- Designed and deployed **Deep Learning** and **Machine Learning solutions** for real-world tasks.
- Created **full-stack AI applications** with backend services using **FastAPI** and **Flask**.

EDUCATION

BSc. Software Engineering

University of Engineering and Technology, Taxila

Sep 2022 - June 2026

Relevant Courses:

Data Structures & Algorithms, Database Management, Computer Networks, Operating System, Software Design & Architecture, Machine Learning, Natural Language Processing

SKILLS

Programming Languages: Python • C++

Machine Learning-Deep Learning : TensorFlow • PyTorch • Keras • Pandas • NumPy • Scikit-learn

Generative AI-Agentic AI : Langchain • LangGraph • RAG • Hugging Face • Vector Stores • N8N

Backend : FastAPI • Flask

Cloud & DevOps : AWS (EC2 & S3) • Git • GitHub • CI/CD • Docker • Kubernetes

Databases : Oracle • MySQL

DECODING LEADERSHIP: LLM-BASED MULTIDIMENSIONAL ANALYSIS OF POLITICAL SPEECHES(FYP)

Dept. of Software Engineering , UET Taxila

Sep 2025 -June 2026

- **End-to-end LLM-based system** for political speech analysis.
- Built pipelines for **speech collection**, **audio-to-text conversion**, and **Fine Tuning**.
- Implemented **summarization**, **sentiment analysis**, **topic and buzzword extraction**, and **promise vs achievement analysis**.
- Designed temporal comparison of speeches and an **interactive dashboard** to visualize insights.

PERSONAL PROJECTS

MCP-Server-Documentation-Retrieval

Dec 2025

An AI-powered documentation assistant that fetches and summarizes content from Python library docs. Users can query libraries like LangChain, Llama-Index, OpenAI, and UV and get precise answers with source links.

Dora AI Assistant

Oct 2025

Dora AI Assistant uses OpenCV to access your webcam and analyze the live feed in real time. It identifies and describes objects or scenes captured by the camera using AI Agents

German Language Learning Buddy

Aug 2025

A German language learning buddy helps you practice speaking, learn new words, and improve grammar in a fun and easy way.

CERTIFICATES

Large Language Models (LLMs) Concepts, Datacamp

Sep 2025
